

KYC Onboarding Standard

1 Overview

This Standard defines the Know Your Customer (KYC) requirements for onboarding new customers and periodically refreshing existing customer information.

2 Identity Verification

Individual customers must provide one primary photographic identity document and one proof of address dated within the last three months. Documents must be validated against an independent electronic data source.

3 Entity Customers

For legal entity customers, the firm shall collect certificate of incorporation, register of directors, and ownership structure sufficient to identify all beneficial owners holding 25 percent or more.

4 Risk Rating

Every customer shall be assigned a risk rating of Low, Medium, or High at onboarding based on geography, product, channel, and customer type.

4.1 Periodic Review

Low-risk customers are reviewed every 36 months, Medium-risk every 24 months, and High-risk every 12 months. A trigger event, such as a change in beneficial ownership, requires an immediate out-of-cycle review.

5 Sanctions Screening

All customers and related parties shall be screened against applicable sanctions lists at onboarding and re-screened whenever the lists are updated. A confirmed match must be escalated to Compliance and the relationship frozen pending investigation.
